SOFTWARE

- Databases : MySQL Workbench 8.0CE, FireBase

- Programming Languages : Java 8, Javascript ES6, TypeScript version 3.9.7, HTML5/CSS3

- Framework and template: Spring (Spring data, Spring MVC, Spring Security, Spring Boot, Spring Resful, Spring Session, Spring Web Services), Thymeleaf, JSTL, JSP, Angular 9, Bootstrap 4, JQuery,…

- Programming Tools : Webstorm, IntelliJ IDEA.,Git

- App server /Middleware : Tomcat

- Software project management : Marven, Gradle

- OOP : Object Oriented Programming (OOP)

OBJECTIVE

• Wishing to have a professional, stable and developed working environment for long-term attachment to the company.• Develop professional

🎓 EDUCATION

DUY TAN UNIVERSITY   **2017 - 2020**
• Major: Graphic design

• Status: Not graduated

📄 CERTIFICATIONS

• Certificate of programming course completion at CodeGym

💼 PROFESSIONAL EXPERIENCE

1. DANANG FURAMA RESORT   **6/2020 – 11/2020**
Developer

- **Management General**: Team size (1 person – myself)
- **Function**: Manager Furama Resort:
  • Employee management: add new employees, modify employees, search and delete employees.
  • Service management: add new services, update services, search and delete services.
  • Customer management: add new customers, update customers, search and delete customers. Attached service management: add new attached services, modify additional services, delete attached services.
  • Contract and Contract-detail management: add new ones, update contracts, search and delete contracts.
- **Technology used**:
  • Backend: Spring Framework (Spring data, Spring Web Services, Spring Boot,..), MySQL • Workbench 8.0CE, FireBase to upload image file.
  • FrontEnd: Spring MVC, HTML5, Bootstrap4, CSS3, ..a Have used Spring boot to write APIs web services that get data from backend to frontEnd (used JDBC, JpaRepository to connect with database).
  • CRUD with database: employees, services, customers, additional services.
With frontEnd, I have built UI:
  • Have used Thymeleaf to binding data for view.
  • Have built UI for main screen and management screen.
- **Project Scope**: Requirements (SRS), Coding and Test.

2. AIR TICKET OFFICE MANAGEMENT   **11/2020 – 24/12/2020**
Developer

- **Company General:** Team size (4 persons * 4 teams).
- **Function of me :** List/search/export pdf invoice.
- **Description:**
  • List invoice: Displays list of invoices.
  • Search invoice: Displays list of invoices when entering correct search information and capcha
  • Export invoice to pdf: Using jspdf and html2canvas to export pdf.
- **Project Scope:**
  • Create prototype: Design UI for function search and create and book meeting rooms.
  • Create Design details: Write useCase, Diagram and PseudoCode.
  • Create database: Using MySQL WorkBench 8.0CE.
  • Coding: Java8, Spring boot, Spring Resful, Angular, Bootstrap, HTML, CSS, Angular material
  • Create Blackbox TC: Write Blackbox testCase for each situation that can happen.
  • Review code and Review quality.
  • Finish this project with Scrum.
- **Technology used: Run-time environment :**
  • Microsoft Windows 10.

skills, learn new programming knowledge to get things done.
• In the next 2 years, I want to become a good tester, have all the necessary skills to handle the assigned tasks well

SKILLS

Office

English

Team Work

• JavaScript, TypeScript, Bootstrap 4, CSS3, HTML5, Angular8, Java8 Spring boot, Spring Resful, MySQL Workbench 8.0CE, Scrum, Trello…
• IntelliJ IDEA, Webstorm.

3. CAR PARKING MANAGEMENT   **25/12/2020 – 12/01/2021**
Developer

- **Company General**: Team size (4 persons * 4 teams).
- **Function of me** : edit, delete, detail information customer
- **Description**:
 • Edit information customer: Edit information, when validated, save it to database and show notications.
 • Delete customer: Delete in popup. Using simple button and modal confirm to delete customer   • Detail information customer: Displays customer details selected from the customer list
- **Project Scope**:
 • Create prototype: Design UI for function search and create and book meeting rooms.
 • Create Design details: Write useCase, Diagram and PseudoCode.
 • Create Blackbox TC: Write Blackbox testCase for each situation that can happen.
 • Create database: Using MySQL WorkBench 8.0CE.
 • Coding: Java8, Spring boot, Spring Resful, Angular, Bootstrap, HTML, CSS, Angular material
 • Create Blackbox TC: Write Blackbox testCase for each situation that can happen.
 • Review code and Review quality.
 • Finish this project with Scrum.
- Technology used: Run-time environment :
 • Microsoft Windows 10.
 • JavaScript, TypeScript, Bootstrap 4, CSS3, HTML5, Angular8, Java8 Spring boot, Spring Resful, MySQL Workbench 8.0CE, Scrum, Trello…
 • IntelliJ IDEA, Webstorm.

ADDITIONAL INFORMATION(PERSONAL QUALITIES AND HOBBIES)

• Hard working with high pressure
• High teamwork spirit and eager to learn and share.
• Analyses ability, carefully.
• Music, Vovinam, games
• Friendly, sociable.

ACTIVITIES

VOLUNTEERS
When I was in university, I participated in charity activities in Dong Giang, Quang Nam
